### A note from the President

We are dedicated to preserving and distributing this gunsmithing knowledge for both the hobbyist and professional, now and for future generations. Our gunsmithing courses contain instruction you will want and need to watch again and again. *If a picture is worth a thousand words then these courses are precious beyond words.*

Gene Kelly, President

We employ cutaway firearms to give you a look inside and a clear understanding of exactly how a gun functions. You will possess the most authoritative information available on the design, function, maintenance and repair of firearms, with the ease of understanding that can only come from watching live action video. Absolutely packed with information not available anywhere else! Owning any of these courses is like having the country's best gunsmithing instructors available whenever you need them.

Our promise to you; when you have finished the Professional Gunsmithing Course from AGI, you will be able to pick up any firearm, even one you have never seen before, determine what type of system it uses and, with that knowledge, analyze the problem and make the appropriate repair. We teach you how all the systems work, the mystery and confusion will be gone. You will actually understand what the problem is and why you are fixing it in a particular way. You will have become a real gunsmith.

We are working to preserve the Gunsmithing Arts and all of our Personal Freedoms through every course we design and produce. Our goal is to build lifetime relationships and referrals. We hold ourselves to a higher standard, and I personally guarantee everything we produce.

What you can always expect, in every course we produce, is to be shown in a detailed step-by-step fashion what you really need to know to successfully complete your project or repair. We focus on providing you value with real world instruction, teaching you the WHY, HOW and WHAT to do. We make sure every presentation is clear and leads you down the road to success.

Sincerely, Gene Kelly  
President of the  
American Gunsmithing Institute

## STUDENT'S RIGHT TO CANCEL

The American Gunsmithing Institute's "RISK FREE" One Year - 100% "Bulletproof Guarantee"

*If you become dissatisfied with the AGI Professional Gunsmithing Course, you can return it for a full refund\* for up to a FULL YEAR! or until you submit your first test for certification, with no hard feelings.
