

You can get started in Gunsmithing *FAST*, by *immediately* being able to rapidly clean firearms using this “Automatic” Gun Cleaning system. Experience real satisfaction working on guns and quickly making a profit!

Plus, with this system and AGI’s training, you could easily pay for your entire Gunsmithing Education and the Tools you need to build your own Gun Shop, even working from your home! Now you can create for yourself a Paid Path to becoming a Gunsmith.

For a limited time, you can get this entire Gun Cleaning System as a Free Bonus when you enroll in any level of the AGI Certified Professional Gunsmithing Course, before they are gone or May 31, 2026!

I am so excited to offer you the opportunity to become a Certified Gunsmith, jump starting a new career making money almost immediately, even working from your home!

With this training system, you can start Gunsmithing quickly by providing Gun Cleaning Services and potentially start Making an extra \$1,000 a month or more, working just part-time while you learn to be a Gunsmith!

How much fun would that be?! And as an AGI Gunsmithing Student you will have access to step-by-step firearm disassembly and reassembly videos for over 240 different common models of guns! You will be able to immediately start doing professional cleanings with total confidence. With this system, it is a snap! (Note: System Size Shown above is the Bonus with the Master Gunsmithing Course Level – Guns NOT included!)

By following what we teach, you can clean up to four guns per hour using our process and this Professional Grade Ultrasonic cleaner. (4 guns at \$50 each = \$200 per hour.)

Make the Choice to become an AGI Certified Professional Gunsmith, and make money part-time, full-time, or as a retirement income doing what you love. Working on guns! Here is your chance to get started fast; A recently you requested AGI’s Professional Gunsmithing Course Introductory Lesson and enrollment package, so you must be interested in learning Gunsmithing, but you have not enrolled yet. Why is that? Is it Because you **don’t believe you can**

learn Gunsmithing through AGI's study-at-home, step-by-step, Firearms Design, Function, and Repair system with video instruction? If so, please check out the hundreds of testimonials and 5 Star Google reviews from AGI students who have found success as a Gunsmith. We have been training people like you to be successful Gunsmiths for over 33 years! I have even provided you links to their interviews at the end of this letter. **BTW, Have you watched the Introductory Video Yet? You can also watch it online at www.GunsmithingCourse.com**

Or could it be?; The investment? Money can be tight for any of us from time to time, but we can ALWAYS find the resources needed *if we really want something bad enough*. So, the important question is; **Do you really want to be a Gunsmith?** Getting paid to work on guns? Do you want to build a future where you control your own time and life? Do you want to improve your life and increase your status among your friends and customers by being a Certified Gunsmith? Then don't let the investment stop you. Immediately Call and speak to an AGI Student Advisor at 1-800-797-0867 and they will help you figure it out. We even have monthly payment plans available.

Plus, in this letter I am offering you as a Bonus an entire Professional Grade Ultrasonic Gun Cleaning system that works like "Magic" to quickly clean firearms without having to completely disassemble them. The higher the level course you enroll in, the *bigger* the Ultra Sonic Machine you get as a bonus. Enabling you to clean more guns faster. It could pay for your entire Gunsmithing Education... Use Code: **USL526 (Note: Bonus NOT included with payment plans. Included with paid in full enrollments only) **Ends: May 31, 2026****

The American Gunsmithing Institute (AGI) is offering you a clear path to become a Certified Gunsmith, using our exclusive Firearms Design, Function, and Repair System (D, F, & R). This is the same training method that AGI has used to train thousands of others to be Gunsmiths for over 33 years.

AGI's Master Level Gunsmithing Course *Exceeds* the training you would get at a typical two-year campus based Gunsmithing school. How can we do that? Concentrated Instruction! In a regular classroom there is so much wasted time and very little actual instruction per hour of class.

You also have to try and remember everything that was taught and fill in the gaps on your own! With AGI we have developed a seamless step-by-step video training system that doesn't waste your time. It is fully indexed, so you can review any part of the course whenever you need to. AND you are learning AGI's exclusive system of Firearms Design, Function, and Repair so that you will be able to pick up any gun, analyze what's wrong and make the appropriate repair on any firearm old or new.

Also In a classroom, you cannot see the close-ups from even the first row, but we show it to you on video close-up, and we use cutaway guns so that you can see INSIDE of the Firearms.

We don't waste your time. Everything is presented in logical order; you can review any section at any time. It is all indexed. You have the instruction available on video to review for you anytime you need it. 24/7. You can't get that experience in a classroom.

And with AGI you have access to support, even after you have completed the courses. Plus, when you enroll, you also receive as an additional bonus, a one-year membership in the Gunsmithing Club of America. This is where over a thousand professional and hobby gunsmiths help each other by answering technical questions and sharing insider information. The website also has massive amounts of resources for you including Disassembly/Reassembly video courses for over 240 different models of firearms representing millions of guns.

A common question is: What about the “Hands-on” Training you get at a Campus Based Gunsmithing School? Well sadly they don’t provide the guns you need and the process of doing the “projects” is slow and outdated. A faster way is by providing professional gun cleanings to get enough guns to work on, and this Gun Cleaning System will help you actually make money while you are learning!

The real KEY is understanding D, F, &R which teaches you WHAT to do along with How & Why to do it a certain way. Then you can direct your hands to do the work. That is what is so special about our D,F,& R training system. You will understand HOW all types of firearms operate internally, both the systems and subsystems, including for all; Handguns, Shotguns, Centerfire and Rimfire rifles!

Quite Frankly You will NOT learn this at *any* Campus Based or other Gunsmithing school – They don’t teach it, because they can’t. They don’t have AGI’s instructors or our system. They focus on “projects”. Good luck with turning that into a real Gunsmithing business! That is why serious students eventually enroll with AGI.

You will be able to diagnose what is wrong and make the appropriate repair. Students at other schools don’t learn this. They are only learning surface level Gunsmithing. Actually, they are just “Parts Swappers”. But as an AGI trained Gunsmith, you won’t be a “parts swapper.” You will be trained in Firearms Design, Function, & Repair. You will know how to repair them!

These Courses are Extremely Affordable when compared to Campus Based Schools that don’t even come close to teaching the level of training and skills that AGI does. Our higher-level courses even include extensive customizing, accurizing, refinishing, restoration, machining, welding, and more. See the enclosed chart.

True Professional Gunsmithing Training from the American Gunsmithing Institute is also just a FRACTION OF THE REAL COST of attending a campus-based school. Because going away to school results in; lost time, two years or more of lost income, moving expenses, and years of living expenses. Add to all of those expenses; Tuition. Which at a two-year campus-based program could cost you \$25,000 or more. When you *total all of that up*, including living expenses and lost income, your *real cost of attending a campus based Gunsmithing School* could be as much as \$100,000 or more! Graduating from the American Gunsmithing Institute won’t cost you even a fraction of that!!

AGI provides you a higher level of training. In fact, our courses EXCEEDS the overall content that you would be getting at those campus-based schools. **Here are 3 reasons why;**

1. AGI eliminated all the wasted time by condensing years of learning and reducing it to just hours of video instruction that is indexed and searchable for rapid access. You are no longer learning at the speed of the slowest student. ***You now learn at your own pace. You choose when and where to study!***
2. Our extensive staff has a *combined* Professional Gunsmithing Experience of over 400 years. There is no other school that provides you access to this level of experience. We have taken the methods that our instructors personally developed over decades, and boiled them down into step-by-step techniques, that you can be applying in hours. It is a Giant Shortcut to becoming a successful Gunsmith,
3. Exclusive Firearms Design, Function and Repair (D, F. & R) training providing you with the ability to analyze problems. You won’t be guessing. We are the ONLY School that teaches using Grand Master Bob Dunlap’s exclusive method. You learn directly from Bob step-by-step on video. We teach you the systems that firearms use, so that you can diagnose and repair *any firearm*, even ones you have never seen before. If you **do not** have this knowledge, then you are Not a Gunsmith, you are only a “parts-swapper”.

Enroll now and as a Bonus get one of the limited number of AGI Professional Gun Cleaning Systems currently available, which includes “Turn-Key” Business Training Videos & a “Done-for-you”, “Fill-in-the-blank” marketing system to bring you a gun cleaning jobs. That will help you gain experience and soon your Gunsmithing business will be launched.

There are three different course levels and sizes of bonuses that you can choose from. The level 1 or Level 2 Gunsmithing Courses comes with the basic model cleaning system. Our most popular is the **Master level Gunsmithing Course and that comes with the medium-sized system that can clean up to 4 guns an hour!** The Advanced Master Gunsmithing Course comes with the biggest.

HOWEVER: You must enroll before May 31, 2026 or before our limited inventory of machines are gone. (NOTE: The Bonus Cleaning System is **Not included with monthly payment plans**).

To understand exactly what is included in this valuable bonus package, **watch this five minute video at: www.AGIProGunCleaningSystem.com** . This video shows the medium size Gun Cleaning system that comes as a **Bonus with the Master Course**. Simply follow the marketing package included with the system and soon you will have all of the Gunsmithing work that you want.

And *THAT could quickly* pay for your investment in your Gunsmithing Education. It is pretty much a no brainer. Watch the video and then give an AGI Student Advisor a call at **1-800-797-0967** or **Enroll online at www.AmericanGunsmithingInstitute.net/courses** Just use or mention Code: **USL526** Make an investment in your future! **Training Courses available with Online Streaming or on DVD!**

Gunsmithing can also be a great second income. For example; you could be making an extra \$1,000 a month or more just by cleaning an average of 1 Gun per day, using AGI's Professional Gun Cleaning System. So, look...Just doing this **One Thing** could easily pay for your entire Gunsmithing Education. And when you enroll during this special offer, we will even **give you the Ultrasonic machine, (size depends on the level you chose)**. You also get the Training to use it and a “fill in the blank” marketing package to get you started. (Only available with paid in full enrollments, not included with monthly payment options)

But you actually have to make the choice to move forward. Pick up the phone and talk to a Student Advisor to get enrolled in any level of AGI Professional Gunsmithing Course and get as a Bonus AGI's Exclusive Professional Gun Cleaning System. 1-800-797-0867. Or enroll online 24 hours a day at **www.AmericanGunsmithingInstitute.net/courses** using Code: **USL526** at checkout to get the bonus cleaning system. **Ends: 5/31/26.**

Put more Freedom and Joy into your life! Make a positive investment in yourself by enrolling in the Professional Gunsmithing Course. Be a Gunsmith and have an extra income so that you can buy the guns, tools, and “toys” that you want, without guilt.

We are looking forward to helping you become a successful, AGI Certified Professional Gunsmith! Give us a call at 1-800-797-0867, mention **code: USL526** And, If you want to see videos of interviews with some of AGI students talking about their personal experiences go to: **www.AGIreviews.com**

To your Gunsmithing success! *Gene Kelly* Gene Kelly, Gunsmith and President, AGI
